FINANCIAL POLICY

Koup Family Dental is 100% committed to providing our patients with the very best dental care. We hope you would not postpone or suspend dental work due to costs. Please know we will work with you to create a payment plan that fits your budget.

Patients with Dental Insurance

Koup Family Dental is an *out-of-network provider for all insurance plans*. As such, our doctors are not beholden to treatment dictated by insurance companies but are instead dedicated to the best treatment for you. If you have **out-of-network coverage**, our office can work with your plan. We will work with any insurance company. As a courtesy to our patients, we will communicate with insurance companies on your behalf and help determine how you can maximize your benefits. While you are ultimately responsible for the full fee of our services, we can file claims on your behalf and, in some cases, collect payment from the insurance company.

Patients without Dental Insurance

Patients without dental insurance coverage are requested to pay for services as rendered and at the time of the appointment. To assist our patients in meeting their financial obligations we offer a number of financial tools including:

- A 10% senior courtesy for those age 65 and older
- A low-cost, in-house dental savings plan that offers discounted preventive and restorative care
- Care Credit TM

Please see our website, or ask our staff for more information regarding these and other options that may help you obtain the dental work you need.

I HAVE READ AND UNDERSTAND THE FINANCIAL POLICY OF KOUP FAMILY DENTAL.
